### Description

#### IP66 box-type design:

- ◆ Screw fixing doesn't interfere with the sealing performance;
- ◆ Multiple mechanical seals around the shaft guarantee the reliability of a waterproof and moisture-proof design;
- ◆ Stainless steel rotary screw does not rust nor damp;
- ◆ Standard cable interface available with seal rings;
- ◆ Internal sealing in top and bottom covers, combined with 2 screws, guarantee an IP66 protection degree;

**SAFE-LOCK** with three rotational positions, reducing the risk of tampering.

The isolator is compatible with various cables: M25, M20, M16, and M12, and with optional waterproof cable joints and MC4 joints.

#### Characteristics of the integration inside the on/off switch:

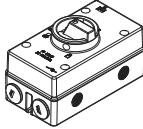

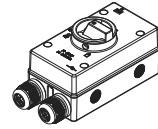

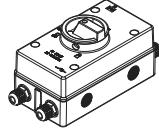

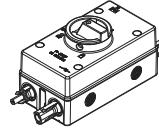

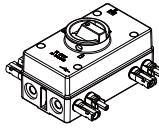

- ◆ Compact structure, with optional 2 or 4 DC poles;
- ◆ Incorporating a user independent switching action, spring mechanism, to ensure a very fast break/make action, ensuring that the disconnection of the load circuits and suppression of the arc normally occurs within 5ms.
- ◆ Self-cleaning contact mechanism, reducing power loss and abrasion, improving the conduction performance, reducing the resistance and energy loss of the switch, extending the on-off lifecycle.
- ◆ Double arc extinguishing mechanism, magnetic and arc chutes, restrain the arc efficiency, especially DC arcs.

## Overview

The EKDBT series photovoltaic DC combiner box is a metal casing with an IP65 protection level. It supports the merging of the DC inputs of up to 24 photovoltaic cell module strings into one or more outputs. It is suitable for residential, commercial, and Industrial photovoltaic power generation systems operating under 1000V, 1500V DC voltage.

This series of products integrates short-circuit and over-voltage protection devices such as DC circuit breakers, fuses, isolator switches, surge protectors, etc., which simplifies the input wiring of DC distribution cabinets and inverters, ensuring the safety of the photovoltaic power generation system, reliable operation.

Here we only list some of the combiner box configuration types on the market. If there are special needs, they can be customized according to the user's needs.
